DOOR OPTIONS

The Contemporary Series

Sleek, minimalistic and effortlessly modern, Steel-Craft's Contemporary Series seamlessly complements the rest of your home. Available in Cedar, Charcoal and Walnut, it offers the look, feel and texture of real wood without the maintenance issues. With Steel-Craft's uncompromising durability and design, streamlined form and function are hallmarks of this garage door series.

Because this climate-ready insulated steel door has an exterior that won't require staining or painting, it won't warp, shrink, peel or crack, making it an ideal door for all Canadian climates.

CONTEMPORARY COLOUR OPTIONS

CHARCOAL

WALNUT

CEDAR

Note: Colour representation may not be accurate. Exact colour matches can be requested from a Steel-Craft dealer.

R-Value

Thickness = 1 3/4"

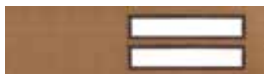

R value = 16.04

Steel-Craft's ClimaCore advantage means that we inject polyurethane insulation directly between the two exterior panels. This CFC and HCFC-free foam gives you better energy efficiency and greater strength.

Premium quality in every layer

We use only the best components for a finished product that delivers unmatched quality and durability:

- Finest quality Canadian galvanized steel
- Polyester paint topcoats to protect the underlying zinc coating
- Thermal-Break separates steel skins to reduce cold/heat conductivity, and stops frost and moisture from collecting on the inside of the door

Hardware

We design and manufacture all hardware components to ensure:

- Optimum strength, durability and smooth operation
- Highest gauge and strongest steel amongst the market
- Top quality nylon rollers for long life and quiet operation
- Computer balanced oil tempered torsion springs, steel bearings and die cast cable drums increase ease of operation
- Corrosion resistant galvanizing is used on all steel parts to reduce the possibility of rusting

Weather Seal

- Exterior grade, double finned weather-stripping provides excellent protection from outside elements as well as a crisp finishing touch to the perimeter of your door.
- Air and wind flow is eliminated by the use of a continuous weather seal inserted between each section.
- Arctic grade seal conforms to minor floor irregularities providing protection against outside air, dust, dirt and moisture.

Virtually Maintenance Free

Finished with a factory applied, baked-on, two-coat exterior polyester paint finish on both sides gives years of maintenance-free operation. The seamless steel inside brightens the interior of the garage and is easy to keep clean.

Unnecessary Lifetime Warranty

Sure, we have a lifetime warranty. But, after thousands of tests performed on all of our parts, we don't think you'll ever need it. In fact, only 0.01% of our customers ever do. See dealer for complete details
